- Scrum, Jira, YouTrack

Portfolio:

Classified

FullStack (Next.JS + Nest.JS) <https://innoads.ru>

Customers login via Telegram. They can create, edit, delete their ads. After the add is posted it is also posted to a Innopolis City Ads channel: <https://t.me/innoads>

It is helpful for over than 3000 citizens of Innopolis City

App has nice PageSpeed, it has PWA(can be as a native app), has own backend. All actions are secure cause of JWT-tokens.

It is SEO-optimized as well

Try to login and check it out!
